LET IT RAIN

Save me ... from the pirates of my mind
Don't let them overcome me
Don't let the darkness blind
Keep me ... from the shadows of the night
Where the voices call you onward

Hide me ... as the demons gather 'round
and drag me back to safety
Don't let them take me down
Guide me ... be my searchlight, be my crew
Be the hole in the cloud
 where the sun breaks through

Let it rain, let it rain
I've seen the edge,
 and made it back again
Let it rage, let it pour
I will dance, I'll be back for more

Catch me ... if the down-turn has begun
As autumn turns to winter
And I'm sheltered from the sun
Hold me ... don't ever let me go
Keep me safe 'til springtime

Let it rain, let it rain
I've seen the edge,
 and made it back again
Let it rage, let it pour
I will dance, I'll be back for more

Dance with me
Shower me with light
Wash me clean
Watch my heart take flight
